

LANCIA APREA

A new dynasty of the sea.

A perfect synthesis of beauty and power, passion and technique, shipbuilding art and modern technology.

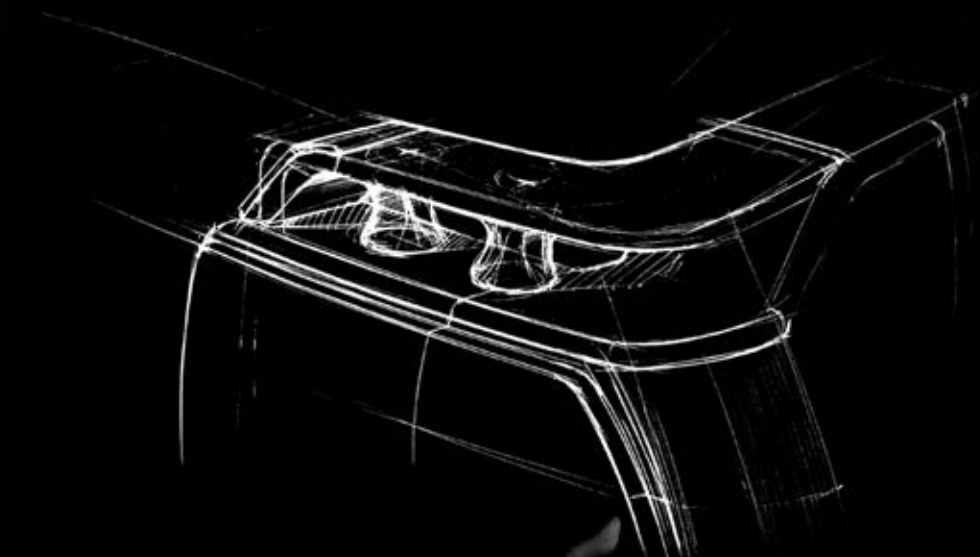

The Lancia Aprea design takes the lines of renowned Mediterranean boat with a cult following, the Lancia Sorrentina. Sorrento, known as the "Land of the Sirens", is a world-famous destination with a rich history in the art of shipbuilding. For centuries, Sorrento has been the beating heart for the creation of extraordinary fishing, cargo, and pleasure boats.

Among these, the refined Lancia Sorrentina excels - a seafaring work of art characterized by the large, load-bearing transom, which stands out for its superior capacity and great sailing speed. Together with the majestic and slender bow, it is designed to challenge the agitated waters of the Gulf of Naples with elegance and audacity.

Made in Italy.
The most authentic
and refined.

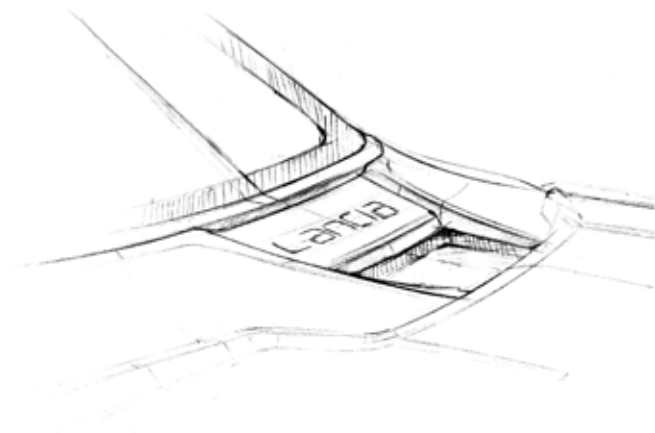

The Lancia Sorrentina was the iconic boat of the 1950s. A favourite yacht among the movie stars who crowded the route between Sorrento and Capri. Rows of impeccable white launches on the Capri quay was the charming greeting for anyone landing on the island.

Heirs of a long construction tradition that has elevated the very famous Gozzo Sorrentino to art, the new generation of Cantieri Aprea of Sorrento, with the expert advice of Brunello Acampora of the renowned Victory Design studio, reinterpret and modernize this noble naval tradition, transforming the Lancia Sorrentina in a contemporary work of art.

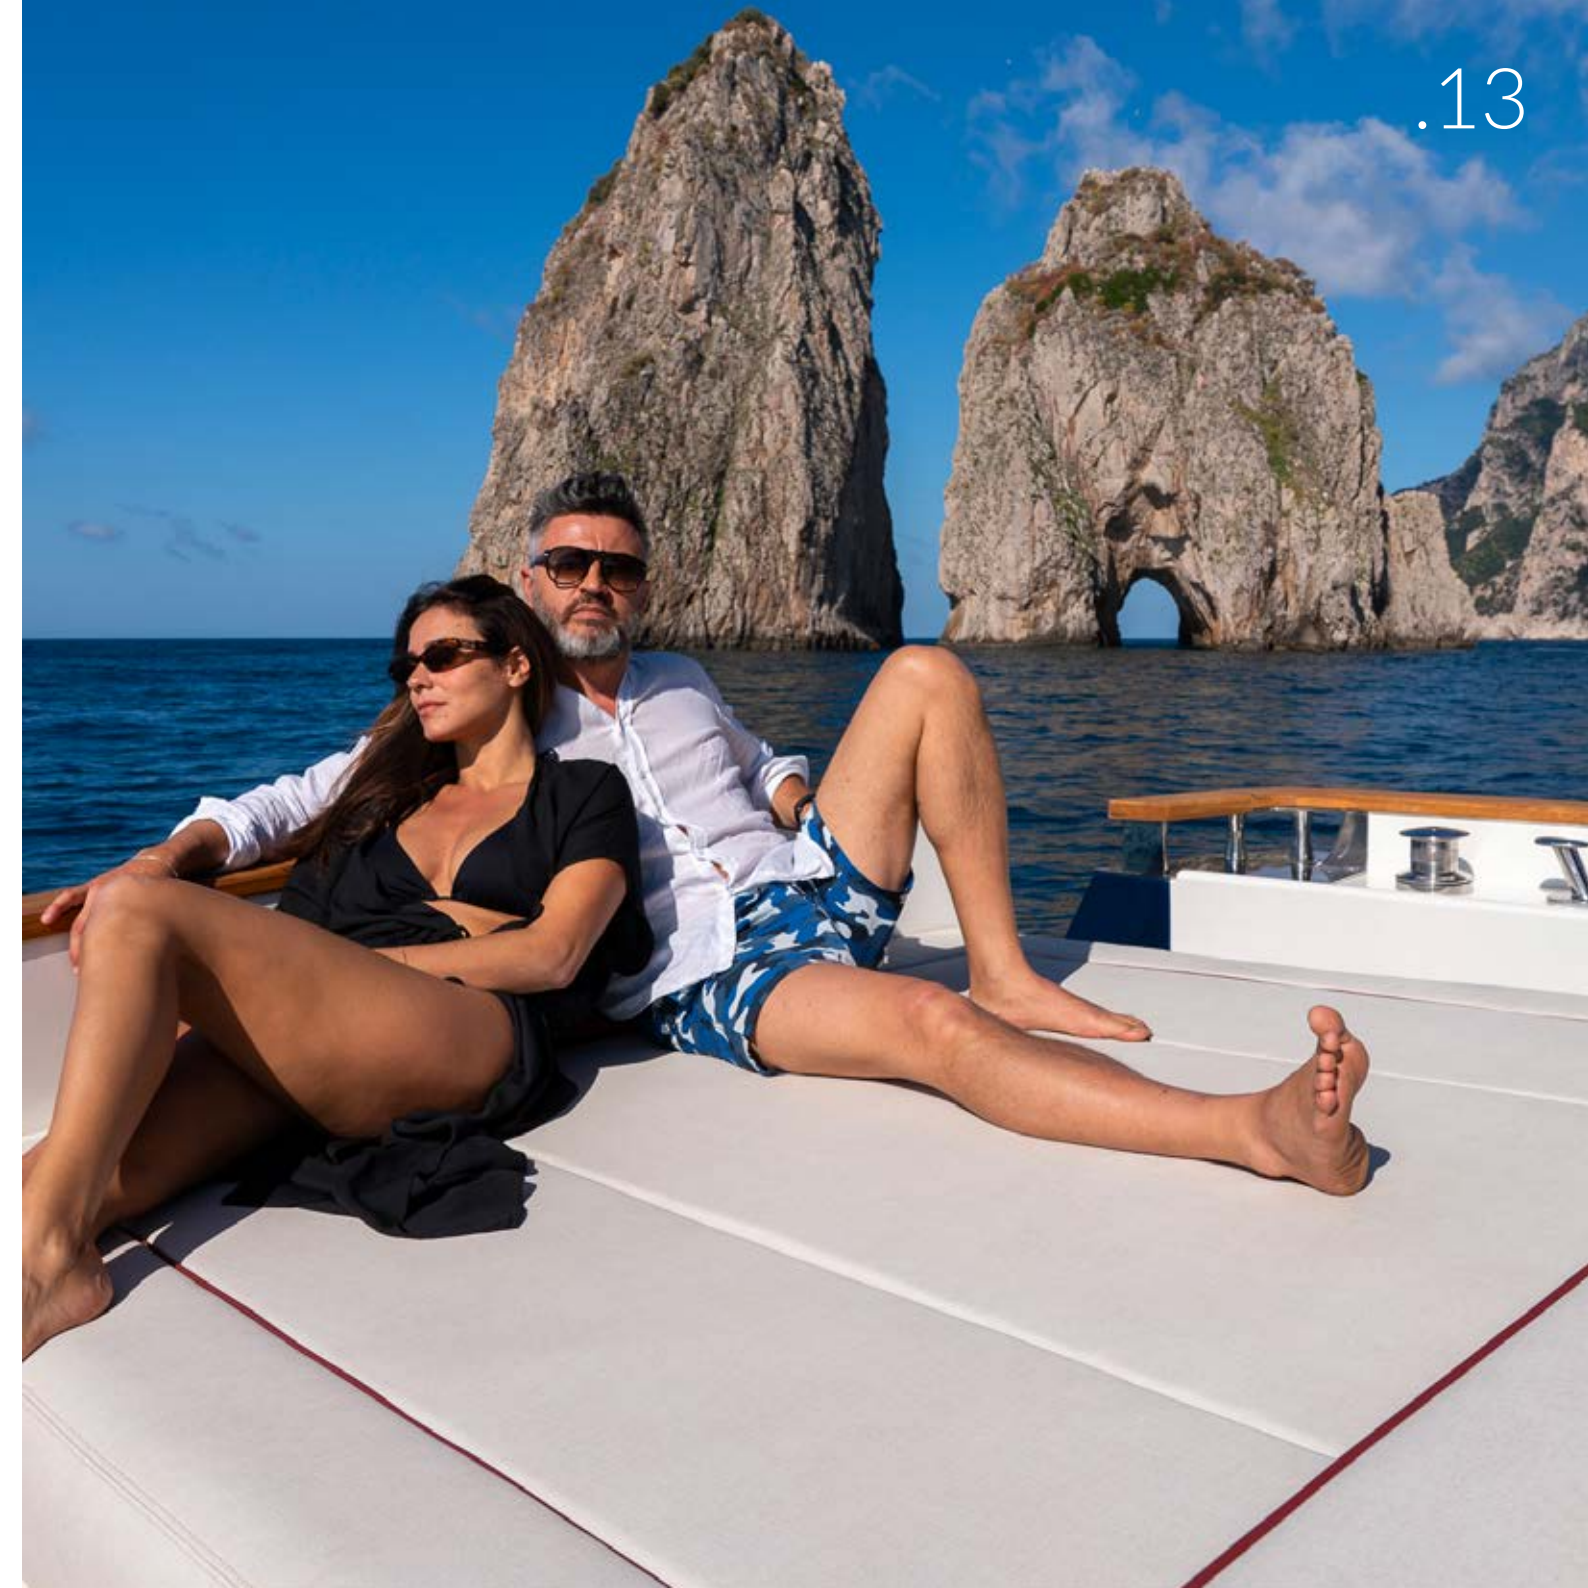

Lancia Aprea is conceived to be a Neo-Classic, able to revive a symbol of the Italian golden age. An ideal bridge between the shipbuilding art of the Sorrentine shipwrights and the most modern technologies available to pleasure boating.

Lancia Aprea. Unique by choice.

Lancia Aprea is one of a kind. Born with an authentic soul that only a shipyard active since 1890 can give to its boats. Attention to detail is maniacal, only the best construction materials and the finest woods are selected, and tradition is not a burden, but a resource to be raised to excellence.

Lancia Aprea is not just a luxurious and elegant yacht, it is a sea story rich in art, passion, and refined technique.

The intersection between the craftsmanship of the Sorrento shipwrights and advanced design brings the experience of the owners and their family to immediately take shape in a unique and personal way. The choice of materials, colors, fabrics, and details make each boat a perfect example of modern bespoke customization.

The hull, designed by the renowned Victory Design studio, is deep and powerful to ensure thrilling performance, stability at sea and low fuel consumption. The deck, seamless from wide stern to bow, offers deep, protected walkways, allowing you to explore the boat in safety and comfort.

A luxurious range of yachts with models from 32 up to 72 feet.

Lancia 52 is the first of a brand new range of luxurious and high-performance yachts, which will soon be enriched by the production of models from 32 to 72 feet. Made in Italy, these powerful and innovative yachts embody

the perfect balance between historical heritage and innovation. Boats for true connoisseur, which will catch the eye of enthusiasts from all over the world. Lancia 52 is offered in three distinct versions, designed to meet the different needs of it's owners.

It can be equipped with straight shaft diesel engines, Volvo Penta IPS800 pods, MAN i6-800 or four Mercury Verado 600 hp outboard motors.

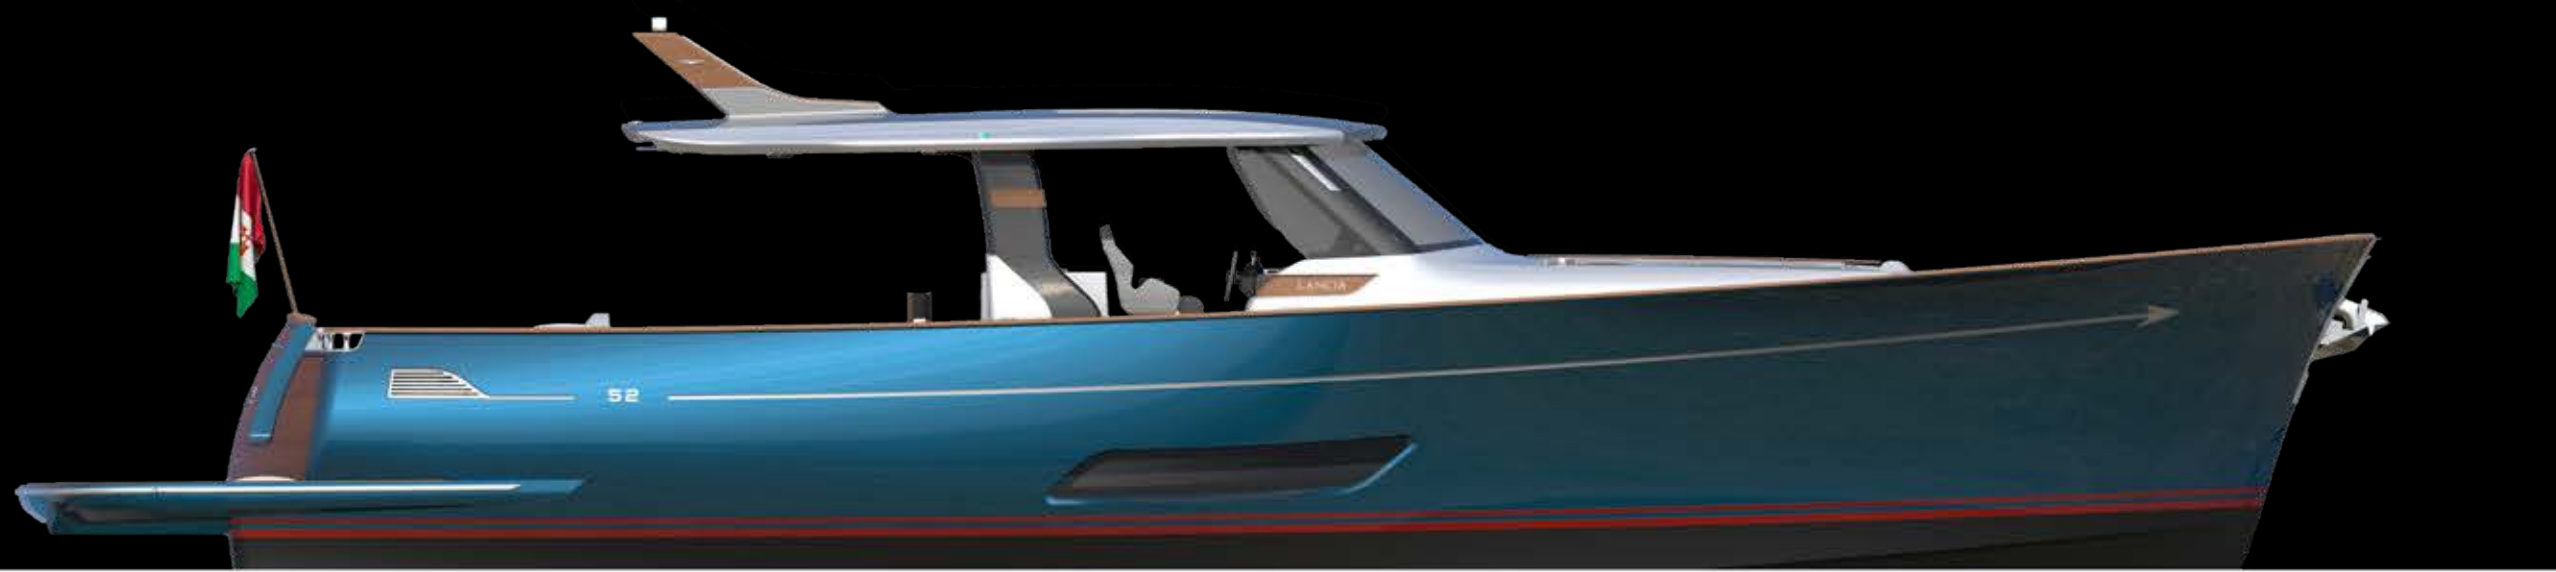

The interior style of the Lancia Aprea is elegant and fresh. The choice of colors that recall the essence of the Mediterranean, as well as the fabrics, aim at an almost sporty simplicity that does not want to give up the style and grace that has always distinguished an Italian product.

The bulkheads are gilded with precious woods and panels encased with the finest Italian fabrics, such as those by Loro Piana Interiors. In the bathrooms and galley, the fabric is replaced by lacquered panels and the counter tops in a custom selection of sturdy Corian®.
